Profile

Driven and adaptable Software Development student in the final year at KCA University, passionate about creating efficient and user-friendly mobile and web applications. Equipped with strong technical skills in Kotlin, HTML, CSS, JavaScript, PHP, and MySQL, and a growing interest in scalable back-end systems. Known for clear communication, problem-solving abilities, and a strong work ethic. Recently completed the ALX Software Engineering Program, which sharpened my technical foundation and strengthened my ability to work in fast-paced, collaborative environments. I thrive on continuous learning and using technology to create real-world solutions

Skills

Mobile & Web Development:

Kotlin (Android), HTML, CSS, JavaScript, PHP

Database Management:

MySQL, Database Design

Tools & Technologies:

Git, Android Studio, VS Code

Soft Skills:

Critical thinking & problem-solving

Attention to detail

Communication & teamwork

Adaptability

Professional Experience

05/2025 – present Remote

Provided academic assistance to international students by helping them solve complex problems and complete assignments.

Specialized in offering support for software development, web applications, and technical documentation.

Delivered high-quality, plagiarism-free work while adhering to strict academic standards and deadlines.

Enhanced students' understanding of technical subjects through detailed explanations and guidance.

03/2023-12/2023 – junior Accountant

Maintained accurate financial records, prepared reports, and balanced ledgers.

Applied analytical and organizational skills to manage financial data and reconcile statements.

Utilized business software including **Microsoft Word, Excel, and Access** to streamline documentation, budgeting, and reporting processes.

Developed a strong foundation in documentation and data handling, which supports current strengths in back-end development and system management.

Education

09/2021 -Present
Ruaraka

Bachelor of Science in Software Development

KCA University

• **Relevant Coursework:**

Mobile Application Development, Advanced Web Application, Operating Systems. User Experience/User Interfaces, Software Engineering, Cloud Programming, Object-Oriented Programming, Accounting for IT including financial ledgers.

• **Clubs:** Women in Tech – KCA University

Actively involved in the Women in Tech community, promoting diversity and inclusion in the tech space. Participated in mentorship circles, coding workshops, and networking events aimed at empowering female developers and encouraging more women to pursue careers in STEM.

Certifications

-

- Certificate in Software Engineering (Back-End Development) - [ALX Africa](#)
- Theoretical understanding of: **Responsive Web Design, Web Development, HTML, CSS, SQL and Python** in [Sololearn code](#)

Languages

- English
- Swahili
